Manchester M3 2JA (GB)

Remarks:

This application was filed on 03-07-2018 as a
divisional application to the application mentioned
under INID code 62.

(54) **BIO-ELECTRICAL SYSTEM FOR TREATING WASTEWATER**

(57) The invention relates to bio-electrochemical systems for treating wastewater, and sour gas produced by anaerobic digestion of organic material. The invention further relates to novel anode/cathode pairing schemes, and electric and hydraulic architectures for use in bio-electrochemical systems.
